### What is Readability?

Readability is a measure of how easy a piece of text is to read. It can include elements of complexity, familiarity, legibility and typography. Readability formulas usually look at factors like sentence length, syllable density and word familiarity as part of their calculations.

### What is a **Good** Readability Score?

A good score to work for, for text aimed at the general public, is a readability grade level of 8 or lower. That's good enough for 85% of the public to be able to easily read your content.

- If you are writing for **children**, aim for their **specific grade level or lower**.
- If you are writing a future **bestselling novel**, aim for a grade level of **6 or lower**.
- If you are writing for the **general public**, aim for a grade level of **8 or lower**.
- If you are writing for a **graduate audience**, aim for a grade level of **10 or lower**.
- If you are writing for a **postgraduate audience**, aim for a grade level of **12 or lower**.

FLAVIUS

Hence! home, you idle creatures get you home:

Is this a holiday? what! know you not,

Being mechanical, you ought not walk

Upon a labouring day without the sign

Of your profession? Speak, what trade art thou?

First Commoner

Why, sir, a carpenter.

MARULLUS

Where is thy leather apron and thy rule?

What dost thou with thy best apparel on?

You, sir, what trade are you?

Second Commoner

The screenshot shows a web application for text analysis. The top navigation bar includes a 'Select or Add Website' dropdown, a 'Go Pro!' button, and links for 'Text', 'Files', 'URLs', and 'Emails'. On the right, there are 'Sign In' and 'More' options. Below the navigation bar, a search bar contains the text 'Finance PPT'. To the right of the search bar is a 'Save' button and two links: 'Export Text' and 'Share Results'. The main content area on the left displays the text: 'The why of finance', followed by a bulleted list: 'Statutory obligations (Charity law, Company Law etc)', 'Managers need to report to stakeholders (owners)', 'enabling external stakeholders to understand and compare results', and 'Produce reports that can be used for internal decision making'. On the right side, a sidebar displays various readability metrics. At the top, there are five columns: 'FAVES' (with a star icon), 'GRADE' (with a yellow 'C' icon), 'ISSUES' (with the number '2'), 'REACH' (with '82%'), and 'WORDS' (with '36'). Below these are two sections: 'Readability Grade Levels' and 'Readability Scores'. The 'Readability Grade Levels' section lists 'Flesch-Kincaid Grade Level' with a score of 10.4 and 'Gunning Fog Index' with a score of 11.3, each with a star icon. The 'Readability Scores' section lists 'Flesch Reading Ease' with a score of 31.5 and a star icon. At the bottom of the sidebar, there is a 'Text Statistics' section.

Text Statistics

Readability can be measured using numerous formulas.

The most popular ones are:

- The Flesch-Kincaid grade level

Looks at the total words, total sentences and total syllables to determine an index level

- Gunning Fog Index

Looks at the total words, total sentences and total complex words to determine an index level
